## PETER DOHERTY AC FAA FRS

Professor Peter Doherty shared the Nobel Prize in Physiology or Medicine in 1996 with Swiss colleague Rolf Zinkernagel, for their discovery of how the immune system recognises virus infected cells. He was Australian of the Year in 1997, and has since been commuting between St Jude Children's Research Hospital in Memphis and the Department of Microbiology and Immunology at the University of Melbourne. His research is mainly in the area of defence against viruses. He regularly devotes time to delivering public lectures, writing articles for newspapers and magazines and participating in radio discussions.

Peter Doherty graduated from the University of Queensland in Veterinary Science and became a veterinary officer. Moving to Scotland, he received his PhD from the University of Edinburgh Medical School. He is the first person with a veterinary qualification to win a Nobel Prize.

Peter is also the author of several books, including "A Light History of Hot Air" and "The Beginner's Guide to Winning the Nobel Prize".

### *Proceeds to "Boroondara Cares"*

"Boroondara Cares" is an initiative of the City of Boroondara and local Rotary Clubs to provide assistance to communities in drought-affected areas in northern Victoria.

A joint project of the Rotary Clubs of  
Glenferrie, Hawthorn, Kew and  
Kew on Yarra
